

CAPABILITY STATEMENT

DTLA Supply Chain, Inc. is a U.S.-based, Berry-compliant manufacturer providing end-to-end textile and garment production for defense, medical, and commercial markets. With vertically integrated operations—including fabric engineering, dyeing, cutting, sewing, finishing, and high-volume assembly—DTLA delivers mission-ready apparel with unmatched speed, consistency, and domestic supply chain security. Our advanced production capabilities support rapid prototyping, large-scale orders, MIL-SPEC quality standards, and time-critical government requirements.

Core Competences

- ✓ **Cut & Sew Manufacturing:** Uniforms, tactical apparel, medical garments, athletic wear, and high-end fashion.
- ✓ **Fabric Engineering:** Custom textiles designed for performance, durability, and specialized military applications.
- ✓ **Berry-Compliant Sourcing:** U.S. fabrics, trims, dyes, closures, and materials for full federal compliance.
- ✓ **Garment Dyeing & Finishing:** Precise color matching, wash durability, and production consistency.
- ✓ **Embroidery & Screen Printing:** Military-grade insignias, patches, and high-durability prints.
- ✓ **High-Volume Assembly:** Scalable production lines supporting rapid-response and sustained large orders.
- ✓ **Quality Assurance:** Multi-stage inspections aligned with commercial and MIL-SPEC requirements.
